SUMMARY

UX Engineer & Product Designer with **3+ years** of experience delivering **user-centered products** across **10+ engagements** in logistics, property & vehicle insurance, healthcare, home décor, and sports domain. Skilled in **UX/UI, user flows, wireframing, prototyping, usability testing, accessibility**, and **design systems**, simplifying complex workflows into intuitive, scalable experiences. Hands-on with **React.js, Next.js, REST APIs**, and **MongoDB**, bridging design and development to deliver **accessible, production-ready products** with less ambiguity and rework.

WORK EXPERIENCE

Software Engineer — Product Design | Front-End Development

Sep 2024 – Present

Trigent Software

Bengaluru

- Worked with clients and product stakeholders across logistics, property & vehicle insurance, and healthcare to conduct **user research**, gather **requirements**, and apply analytical skills to design **user-centered experiences** across **10+ engagements**.
- Designed **user flows, wireframes**, and **high-fidelity interfaces**, leading **stakeholder management** sessions to present **design rationale**, identify **usability issues**, and refine key workflows before development.
- Prepared **design specifications** and **handoffs**, engaging in **cross-functional collaboration** with engineering teams to ensure accurate implementation, while contributing **React.js** front-end development for **responsive and accessible interfaces**.
- Introduced a **new UX approach** for **ConnectMGA** that received **direct client appreciation** and contributed to being selected for the ePP project, where the approach was used again.
- Leveraged **Data Visualization** techniques to build **interactive dashboards** and data-heavy interfaces that empowered stakeholders to monitor and analyze critical performance metrics across logistics and healthcare projects.

UX & Web Design/Development

Jul 2023 – Aug 2024

Freelance

Udupi

- Owned **end-to-end UX design, requirements gathering**, and **responsive front-end development** for local business clients, including deployment and **brand identity** assets to strengthen digital presence.

Social Media Content Designer (Intern) — Graphic Design & Social Media Handling

Sep 2022 – Jan 2023

Growcify

Bengaluru

- Created **200+ static assets** and **10+ motion graphics** using **Adobe Photoshop** and **After Effects**, while managing social media content and publishing for Growcify's SaaS platform.

EDUCATION

East West College of Engineering, VTU

2019 – 2023

Bachelor of Engineering (B.E.), Computer Science & Engineering

TECHNICAL SKILLS

UX/UI Design:	Figma, Wireframing, Prototyping, User Flows, Information Architecture, Usability Testing, Interaction Design, Accessibility (WCAG), Design Systems, Responsive Design, Adobe Creative Suite
Full-Stack Development:	React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap 5, Material UI, Express.js, Node.js, REST API, MongoDB, Redux Toolkit, Zustand, Cloudinary CDN, GSAP, Framer Motion
Development Tools & AI:	Cursor, Claude, Git, WordPress, SEO, LangChain, LangGraph, ChromaDB, RAG, Vector Embeddings

SELECTED PROJECTS

ConnectMGA — Vehicle Insurance Mobile App

- Led **end-to-end UX design** across registration, claims, policy, and supporting journeys, defining **user flows**, **information architecture**, **wireframes**, **prototypes**, and **high-fidelity mobile UI** for a complex insurance product.
- Identified and resolved **4+ major UX/usability issues** in high-friction registration and claims flows, simplifying interactions, improving form clarity and navigation, and addressing key **user drop-off** points.
- Established a modern **visual language**, **micro-interactions**, and **interaction feedback** that earned **direct client appreciation** for the UI and overall user experience.

Community Sports App — Sports Management Platform

Jun 2025 – Dec 2025

- Designed a **multilingual** sports platform across four **role-based journeys** — Main Admin, Sub Admin, Event Staff, and Standard User — defining **user flows**, **information architecture**, registration, event, and result-management workflows.
- Created **mobile-first, accessible experiences** with simplified forms, fat-finger-friendly interactions, Aadhaar/database validation, and age-based event rendering, improving **usability** across Kannada, English, and Hindi.
- **Prototyped in Figma** and contributed to React and Tailwind CSS implementation, supporting **3K+ daily traffic** and streamlined participant and organizer workflows.

UI-Verse — Internal Presentation Platform

Dec 2025 – Mar 2026

- Designed a centralized presentation platform by defining **information architecture**, **content hierarchy**, **interaction patterns**, and **navigation flows**, making internal project content easier to explore and present.
- Created an engaging yet professional experience using **wireframing**, **prototyping**, **interaction design**, and **motion principles**, with GSAP, Framer Motion, and Lenis supporting scroll-driven interactions.
- Translated designs into a **responsive, accessible, performance-focused interface** using React/Vite and Tailwind CSS, supported by centralized content management through Express.js and MongoDB.

CERTIFICATIONS

- Claude Code in Action
- Fundamentals of AI Agents Using RAG and LangChain
- Google UX Design Professional Certificate
- UI Design & Development (Tutodude)
- Responsive Web Development (freeCodeCamp)
